

Midland 70-1308A
For Syn-Tech II & XTR.

This is a top view of the programming
'receptical' on the top of the radio.
Note the 'key-way' on the top.

Syn-Tech II or XTR radio
10-pin "header pin" plug.
This would be the same type
plug used to connect the COM
port to the motherboard in
some computers.

RS-232C (COM Port)
First number is for 9 pin port,
number in parenthesis is for
25 pin port.
